Veri tabanı ana sayfasında, Kütüphanemizin satın aldığı kitapların alfabetik listesi görüntülenmektedir.

Kitap isimleri linklidir ve tıklandığında kitabın içindekiler sayfası görüntülenir.

The screenshot displays two windows from the ScienceDirect website. The left window, titled 'ScienceDirect - Browse Journals and Books - Alphabetically', shows a list of books under the 'Acoustics' category. The right window, titled 'ScienceDirect - Acoustics Home Page', shows the details for the book 'Acoustics' by Paul Filippi, Dominique Habault, Jean-Pierre Lefebvre, and Aimé Bergassoli. The book's ISBN is 978-0-12-256190-0. The table of contents lists the following sections:

- Foreword, Page xii
- Preface, Pages xiii-xv
- Chapter 1 - Physical Basis of Acoustics, Pages 1-39
- Chapter 2 - Acoustics of Enclosures, Pages 41-88
- Chapter 3 - Diffraction of Acoustic Waves and Boundary Integral Equations, Pages 89-120
- Chapter 4 - Outdoor Sound Propagation, Pages 121-157

CHAPTER 14
INVENTORY AND EVOLUTION OF FUNGAL ABC PROTEIN GENES
CHRISTOPH SCHÜLLER,
BETTINA E. BAUER AND
MICHAEL J. G. MEHL

or molecules, they can also act as receptors, sensors, proteases, channels, channel regulators and even signal-ing components (Higgins, 1995). The question of how the highly conserved molecular architecture of ABC proteins maintains such a functional diversity remains elusive. Hence, the functions of many ABC proteins may hold surprises and many important issues remain to be discovered. In this chapter, we will discuss the structure, function and properties of fungal ABC proteins, focusing on the inventory of ABC genes in *S. cerevisiae*. Because the functional annotation of the yeast genome is fairly advanced, we will also compare the yeast ABC inventory to those from fungal pathogens (*Candida albicans* and *Aspergillus fumigatus*) whose genomes have been sequenced or are close to being sequenced.

Michaelis, 1998). ABC proteins are ubiquitous and form one of the largest gene families known with more than 2000 distinct ABC genes present in various current databases, e.g. Interpro (www.ebi.ac.uk/interpro/) or Prosite (www.expasy.ch/Prosite). All known ABC proteins share a common hallmark domain, the highly conserved ABC domain, also known as the nucleotide-binding domain (NBD). The NBD

Gelişmiş Tarama

The screenshot shows the ScienceDirect website in a Windows Internet Explorer browser. The browser's address bar displays the URL: http://www.sciencedirect.com/science?_ob=MiamiSearchURL&_method=requestForm&_btn=Y&_acct=C000038638&_version=1&_urlVersion=1&_userid. The browser's title bar reads "ScienceDirect - All Sources Search - Windows Internet Explorer". The browser's menu bar includes "Dosya", "Düzen", "Görünüm", "Sık Kullanılanlar", "Araçlar", and "Yardım". The browser's toolbar includes "Go", "Bookmarks", and "576 blocked". The browser's status bar shows "TR", "10:56", and "Çarşamba".

The ScienceDirect website interface includes a navigation bar with "Home", "Browse", "Search", "My Settings", "Alerts", and "Help". The "Search" tab is selected. The "Quick Search" section includes a "Title, abstract, keywords" search box, an "Author" search box (with "e.g. j.s.smith" as an example), and a "Journal/book title" search box. The "Advanced Search" and "Expert Search" links are also visible. The "All Sources" tab is selected, and the "Books" sub-tab is highlighted. The "Term(s)" search box is empty, and the "within:" dropdown menu is set to "Abstract, Title, Keywords". The "Include:" section has "Journals" and "All Sources" checked. The "Subject:" dropdown menu is set to "All Sciences". The "Dates:" section is set to "1998". The "Search" button is visible.

Three callout boxes provide additional information:

- Gelişmiş tarama sayfası**: This box points to the "Search" tab in the navigation bar.
- "Books" sayfasından Elsevier yayınevinin sadece kitapları içinde tarama yapabilirsiniz.**: This box points to the "Books" sub-tab in the "All Sources" section.
- "Journals" sayfasından Elsevier yayınevinin sadece dergileri içinde tarama yapabilirsiniz.**: This box points to the "Journals" sub-tab in the "All Sources" section.
- "All Sources" sayfasından Elsevier yayınevinin hem dergilerinde, hem de kitaplarında tarama yapabilirsiniz.**: This box points to the "All Sources" sub-tab in the "All Sources" section.

Gelişmiş Tarama

Taramalarınızı yazar adından, kitap adından, bölüm adından, özetten, referanslardan, ISBN numarasından, yazarın bağlı olduğu kurum isminden, tam metinden ya da tüm alanlardan yapabilirsiniz. Aradığınız kitapları konu başlığına göre ve yıl ile limitleyebilirsiniz.

10 GENERATION OF KNOWLEDGE FOR CLINICAL DECISION SUPPORT: STATISTICAL AND MACHINE LEARNING TECHNIQUES

MICHAEL E. MATHENY and LUCILA OHNO-MACHADO

10.1 INTRODUCTION

Clinical decision support (CDS) systems must rely on knowledge that originates from a variety of sources. However, selecting the sources and integrating this knowledge into a functional system are not trivial tasks. In early CDS systems, knowledge acquired directly from medical experts was encoded in the form of rules that were triggered and chained according to an embedded or an external inference engine (Shortliffe, 1976). As discussed in Chapters 1 and 9, some examples include early systems from the 1970s and early 1980s, such as MYCIN (Shortliffe et al., 1971), Internist/QMB (Miller et al., 1982, 1986), and more recent ones, such as DEXPLAIN (Barrett et al., 1997). MYCIN was composed of a sophisticated rules with associated certainty factors, whereas QMB and DEXPLAIN were based on a set of physician-based assessments of (a) the strength with which clinical findings evoked a certain diagnosis, (b) prevalence of diseases, and (c) related indices. As noted by Heckerman and colleagues, the formal mathematical definitions
