Professional Multicore Programming

Written By Hughes, Cameron; Hughes, Tracey
Published By Wrox in 2008

Open Now »

[Description] Professional Multicore Programming: Design and Implementation for C++ Developers presents the basics of multicore programming in a simple, easy-to-understand manner so that you can easily apply the concepts to your everyday projects. Learn the fundamentals of programming for multiprocessor and multithreaded architecture, progress to multi-core programming and eventually become comfortable with programming techniques that otherwise can be difficult to understand. Anticipate the pitfalls and traps of concurrency programming and synchronization before you encounter them yourself ...MORE»

Model Building in Mathematical Programming

Written By Williams, H. Paul
Published By Wiley in 2013

[Description] The 5th edition of Model Building in Mathematical Programming discusses the general principles of model building in mathematical programming and demonstrates how they can be applied by using several simplified but practical problems from widely different contexts. Suggested formulations and solutions are given together with some computational experience to give the reader a feel for the computational difficulty of solving that particular type of model.

The screenshot shows the Lib.mylibrary.com Advanced Search page. The search results for 'Cambridge University Press Textbooks' are displayed. A blue arrow points to the 'Cambridge University Press' link in the list of publishers.

The screenshot shows the ILMyLibrary.com Advanced Search page. At the top, there is a navigation bar with links for Home, New Titles, and Logout. Below this is a search bar with the text 'Search by keyword or call number'. The main content area is titled 'Select LC Classes'. It contains instructions: 'Click on an LC Class, then the "Add" button to add it to your list. Click the plus sign to expand an LC Class. Click the minus sign to close an LC Class.' The left pane lists various LC classes, including Agriculture, Library Sciences of History, Education, Fine Arts, Architecture, Anthropology, Archaeology, Botany, Chemistry, Earth Sciences, Engineering, Geography, Geology, History, Law, Medicine, Music, Natural Sciences, Physical Sciences, Social Sciences, and World History and Geography. The right pane shows a search results area with a table of results. A blue arrow points to the 'Add' button in the left pane.

The screenshot shows the 'Advanced Search' page of the ILIRIA Library. A modal window titled 'Select Languages' is open. It contains the following text: 'Click on a language. When the "Add" button is added to your list. Click on click to select multiple languages.' Below this is a list of languages: German, Chinese, Dutch, English, English/Spanish, French, German (highlighted with a blue bar and a blue arrow), Italian, Russian, Latin, Lithuanian, Norwegian, Portuguese, Spanish, and Spanish. To the right of the list are three buttons: 'Add', 'Remove', and 'Remove all'. At the bottom right of the modal is a 'Done' button. The background shows the library's search interface with a search bar and navigation links like 'Home', 'New Titles', and 'Logout'.
